

DATAMASTER CONTROL STATION

Provide real time information to the factory floor

The **MARCO DataMaster Control Station** is the central command hub for managing your MARCO Line and Scale Workstations.

Designed to empower supervisors, it enables real-time monitoring and control of production processes, ensuring optimal performance and efficiency.

With seamless single-line setup via stored product files in MARCO's YCM Software, the DataMaster provides live production analytics—including operator performance tracking and batch progress updates, at a glance.

Built for demanding industrial environments, the terminal features cutting-edge computing technology housed in a robust, purpose-built stainless steel chassis. Its 15.1" industrial-grade NEC TFT widescreen display, paired with a durable 5-wire resistive touchscreen, delivers intuitive and reliable operation, even in challenging conditions.

PRODUCT SPECIFICATION

Power Supply: 110 - 240v
IP Rating: IP-65
Material: 304 Stainless Steel

- EMC Directive: 2014/30/EU
- Low Voltage Directive: 2014/35/EU

OPTIONS

Tabletop
Wall Mount
Pole Mount - Standard & Mobile
Scanner
Printer & Cabinet
Printer/Cabinet & Scanner
Access Point

KEY FEATURES & BENEFITS:

- Centralised control
- Real-time monitoring
- Seamless software integration
- Integrated Access Point
- Space efficient
- Multiple mounting options
- IP69 Rated for use in harsh, wet production environments.
