

AVERAGE WEIGHT MODULE

1 Summary

The MARCO Average Weight Module (AWM) is an offline weight sampling system with an intuitive interface for compliance with average weight legislation.

The DataMaster Touch Screen Terminal provides clear instructions guiding operators through the sampling process, with real-time updates on average weight and enforcing scheduling of checks.

The touchscreen terminal has a Certified Indicator integrated to comply with CE standards.

AWM is typically used standalone with reports obtained via a local network

2 Key Features & Benefits

Real-Time Process Control	Reduced Overpack/ Giveaway
Enhanced Quality Control	Increased Productivity
Legal Compliance and Auditing	Improved Operational Efficiency

3 Industries

FRESH PRODUCE

CONVENIENCE FOOD

FISH

MEAT/POULTRY

DAIRY

HERBS

FORMULATION

4 Service & Support

The **MARCO Hi-Care support programme** is offered with all our products to ensure that your MARCO system is fully supported in the most efficient and timely manner. [Find out more](#)

Unleash the power of real-time data with **MARCO INSIGHTS**, our IoT-powered solution.

This advanced system harnesses the power of data visualisation and analytics, presenting actionable information in an intuitive and accessible manner.
