

DATA EXCHANGE MODULE

1 Summary

The MARCO Data Exchange Module (DEM) handles the bi-directional data integration between MARCO Software applications and customers third party software.

Typical customer applications include: ERP system / Payroll system / MES System

DEM uses several methods of data transfer: CSV / XML / Webservices

Both CSV and XML require files to be uploaded or downloaded from a dedicated file storage location accessible by both systems. Webservices are more versatile and can offer more specific integration.

2 Key Features & Benefits

Reduce requirements for duplication of data entry	Capture and view required data in a single platform
Utilise the best system for specific tasks	Enhance traceability and food safety
Customisable data transfer scheduling	Operational efficiency and automation

3 Industries

-  FRESH PRODUCE
-  FISH
-  DAIRY
-  FORMULATION
-  CONVENIENCE FOOD
-  MEAT/POULTRY
-  HERBS
-  BAKERY

4 Service & Support

The **MARCO Hi-Care support programme** is offered with all our products to ensure that your MARCO system is fully supported in the most efficient and timely manner. [*Find out more*](#)

Unleash the power of real-time data with **MARCO INSIGHTS**, our IoT-powered solution.

This advanced system harnesses the power of data visualisation and analytics, presenting actionable information in an intuitive and accessible manner.
